Moya We Khaya is an organic farm run by mostly retired farmers with each tending to their own space but with an overall idea of community and helping one another.

Often helped by unemployed youth, the team have a strong belief in supporting and educating future generations of independent farmers.

Additionally to purchasing fresh produce, *Gigi & George* offer direct support as part of the hotel's overall commitment to sustainability, upskilling and regenerative farming.

cape town's
GOOD PRODUCE
ethical suppliers

Knowing where your food comes from is as important as the food itself, so we're focused on sustainable, ethically-sourced produce from free-range eggs, artisanal cheese, pasture-reared beef and line-caught fish from sustainable fisheries.

MONTAGU CHEESE

LOW ENVIRONMENTAL IMPACT
farming alongside happy, grass-fed, free-range cattle.

As a micro-cheesery, Montagu is committed to focus on producing top quality cheese and cheese products. By working together with regenerative farmers, they make use of cheese by-products & feeding any cheese waste products to the farm's free-range pigs or as compost.

N'ROUGAS FARM

N'Rougas Farm is a predator-friendly sheep farm. The sheep are shepherded by day and kept in a kraal at night, allowing the jackals and caracals to live in harmony with the farm, and the local ecosystem to remain as close to its original state as possible. Using a holistic management system, the shepherds move the sheep in grazing patterns designed to mimic the natural migration of the wildlife that used to roam free in the area. The flock's trampling hooves help to work the manure and dead plant material back into the soil, creating a fertile seedbed and allowing better rain absorption and less water run-off and soil erosion. These practices along with carefully planned recovery times for the plants, means quicker regeneration of biodiversity and grass volumes. The health of the soil is also improved and has better carbon absorption abilities.

ABALOBI

Abalobi is about ecologically responsible, and sources local seafood harvested by small-scale fishers, using low-impact fishing methods. Abalobi sources seafood which is fully traceable and upholds practices which are socially fair.

MUSHROOMS

Sourced from a local entrepreneur who works hands-on with the fungi that is grown, ensuring that we source the highest quality locally grown mushrooms.

We're proud to be a part of Ladles of Love's charitable 'Feed The Soil' initiative. The initiative produces compost from food waste which in turn is donated to farmers to help grow organic produce. The products are purchased by the hotel which in turn helps farmers to sustain a profitable livelihood. The program promotes healthy compost production from everyday kitchen waste, and by recycling and composting our food waste, we actively form part of our local farming community's ecosystem.

LADLES OF LOVE

MICRO-GREENS

Organically grown 1km from here, our microgreens offer a number of enhanced nutritional benefits:

- RICH IN POTASSIUM, IRON, ZINC, MAGNESIUM & COPPER (2,3)
- ANTIOXIDANTS DERIVED FROM PLANT COMPOUNDS (4)

DALEWOOD

Dalewood is a regenerative farm, Dalewood has evolved to embrace an environmentally friendly way of farming, with a philosophy which believes in putting more back into the land than taking from it. Different from artisan cheese, which may include milk purchased from off-farm sources, Dalewood's products are made from their own Jersey milk which is testament to their label as an authentic estate farm.

HONEY

Our honey from a local farmer, Inge Lawson, is important to us. Inge's apiary in Noordhoek is a stone's throw from our farm, and the honey comes from flora in and around the area. The benefit of sourcing locally produced honey from local flora has the benefit of reducing allergies when consumed. Due to the proximity of Inge's apiary to our farm, we are able to contribute to reducing our carbon footprint, as well as the benefit of a reduced carbon footprint.
